Eslam358   🌐 portfolio-eslam.netlify.app

PROFESSIONAL SUMMARY

Passionate Full Stack Developer with expertise in modern web technologies including React, Next.js, Node.js, and TypeScript. Strong foundation in creating responsive, user-friendly applications with clean code architecture. Experienced in both frontend and backend development with MongoDB and RESTful APIs. Committed to continuous learning and implementing best practices in web development.

PROFESSIONAL PROJECTS

E-Commerce Application

- Developed a fully responsive e-commerce platform with comprehensive features including product browsing, category filtering, user authentication, shopping cart management, and wishlist functionality
- Implemented global state management and modern UI components
- **Frontend:** React, Redux Toolkit, Material-UI, Sass, Axios
- **Live Demo:** https://main−commerceshopping.netlify.app/
- **Source Code:** github.com/Eslam358/app_commerce

Article Management System

- Built a full-stack blogging platform with complete content management capabilities allowing users to create, update, delete, and comment on articles
- Implemented authentication, protected routes, and real-time UI updates using Next.js server actions
- **Full Stack:** Next.js, MongoDB, Tailwind, Zod, JWT
- **Live Demo:** https://app-articles.vercel.app/articles
- **Source Code:** github.com/Eslam358/app_Articles
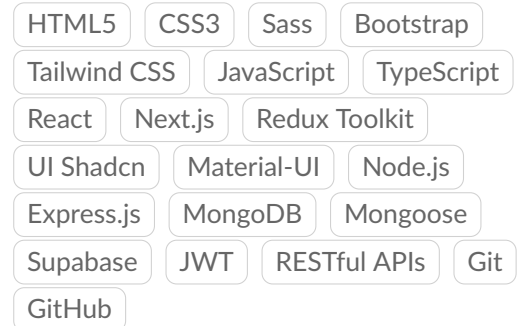

Restaurant Booking System

- Created a comprehensive restaurant booking platform with secure database operations, custom hooks, clean code architecture, and reusable components
- Implemented loading states, toast notifications, and success UI with responsive design
- **Full Stack:** Next.js, Supabase, Tailwind CSS, ShadCN UI
- **Live Demo:** http://restaurant-booking-taples.vercel.app
- **Source Code:** github.com/Eslam358/restaurant_Booking_Taples

Servare - Blogging Platform API

- Developed a comprehensive RESTful API for a blogging platform with user authentication, article management, and comment system
- Implemented secure JWT-based authentication, CRUD operations, and search functionality with MongoDB integration

TECHNICAL SKILLS

HTML5   CSS3   Sass   Bootstrap   Tailwind CSS   JavaScript   TypeScript   React   Next.js   Redux Toolkit   UI Shadcn   Material-UI   Node.js   Express.js   MongoDB   Mongoose   Supabase   JWT   RESTful APIs   Git   GitHub

EDUCATION

Bachelor of Commerce
Al-Azhar University

- Major: Accounting
- Graduated: 2016
- Grade: Good

STRENGTHS

Full Stack Development
Expertise in both frontend and backend technologies

Responsive Design
Building applications that work seamlessly across all devices

Backend Development
Experience with Node.js, Express.js, MongoDB and RESTful APIs

Continuous Learning
Committed to staying updated with latest technologies and best practices

- **Backend Technologies:** Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt.js, Multer, CORS, Express Validator
- **Key Features:** User Authentication, JWT-based security, CRUD operations, User profile management, Search functionality, Password encryption, File upload, Input validation
- **Backend API:** https://express-node-bay.vercel.app
- **Source Code:** github.com/Eslam358/express_node

ADDITIONAL PROJECTS

Portfolio Website

- Personal portfolio showcasing GitHub projects with responsive design and project filtering capabilities
- **Frontend:** HTML, CSS, JavaScript, React
- **Live Demo:** https://portfolio-eslam.netlify.app/
- **Source Code:** github.com/Eslam358/portfolio

Card Matching Game

- Interactive memory game with score tracking and responsive design for all device sizes
- **Frontend:** HTML, CSS, JavaScript
- **Live Demo:** https://amazing-malasada-e11808.netlify.app/
- **Source Code:** github.com/Eslam358/Game

CERTIFICATIONS & LEARNING

- Frontend Development Certifications (Self-Study)
- React.js & Next.js Online Courses
- Modern JavaScript & TypeScript
- Node.js & Express.js Backend Development
- MongoDB Database Management
- RESTful API Design & Development
- Responsive Web Design
- State Management with Redux Toolkit
- Git & GitHub Version Control
- Authentication & Authorization Systems

TECHNICAL ACHIEVEMENTS

- Built 6+ full-stack web applications using modern technologies
- Implemented secure authentication systems with JWT
- Developed RESTful APIs with comprehensive CRUD operations
- Created responsive designs that work across all devices
- Integrated multiple databases (MongoDB, Supabase)
- Implemented state management solutions (Redux Toolkit)
- Deployed applications to various platforms (Netlify, Vercel)

DEVELOPMENT APPROACH

I follow industry best practices including clean code architecture, responsive design principles, and secure authentication methods. My development process includes proper planning, iterative development, thorough testing, and continuous deployment. I prioritize user experience and performance optimization in all projects.

PERSONAL INFORMATION

- **Date of Birth:** February 14, 1994
- **Nationality:** Egyptian
- **Military Status:** Completed
- **Location:** Giza, Egypt
